REASONS FOR ALLOWANCE

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

As per independent claim 1, the prior art does not teach an ejector cycle system comprising the combination as recited, and in particular the combination of the bypass means and switching device, wherein the interior heat exchanger is coupled to the ejector such that the refrigerant flowing out of the interior heat exchanger is introduced into at least a refrigerant inlet of the nozzle in the hot gas heating mode.

As per independent claim 8, the prior art does not teach an ejector cycle system comprising the combination as recited, and in particular the combination of the recited cooling and hot gas heating modes, and wherein in the hot gas heating mode refrigerant discharged from the compressor flows into the nozzle, is introduced into the interior heat exchanger through the low-pressure suction port, and flows into the gas-liquid separator, while bypassing the exterior heat exchanger.

As per independent claim 11, the prior art does not teach an ejector cycle system comprising the combination as recited, and in particular, in the hot gas heating mode, the refrigerant discharged from the compressor being is introduced into the clearance while bypassing the exterior heat exchanger, and flows into the interior heat exchanger from the ejector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
